The image displays three examples of check forms arranged vertically. Each form is a standard check template with a header section containing the company name, check number (001001), and a date field. The forms are otherwise blank, showing the typical layout of a check with fields for amount, payee, and a signature line.

**JOBPOWER**  
SOFTWARE FOR THE CONSTRUCTION INDUSTRY

Dear JOBPOWER Software User,

Thank you for being a valued JOBPOWER Software customer. We are pleased to offer you a complete line of checks and forms, litho-printed in your choice of 18 ink colors and 3 background designs.

Each format has been carefully designed and is guaranteed to perfectly align with your new software or your money will be refunded. The forms you receive will be of the highest quality workmanship and materials and we guarantee this unconditionally. The use of our checks and forms greatly enhances the image you present to your customers.

Ordering checks and forms has been made easy for you. Our courteous and knowledgeable Customer Service Representatives are waiting to assist you should you have any questions.

Again, thank you for choosing JOBPOWER for your construction software needs. We look forward to being the source for all your printed documents.

Sincerely,  
Customer Service Department  
An authorized JOBPOWER supplier.

## **MATCHLESS GUARANTEE:**

Our forms are exclusively guaranteed to align with JOBPOWER the first time. If for any reason you are not completely satisfied with your purchase from National Document Solutions, simply return it immediately for a prompt and friendly refund or exchange.

# Copy Alert™ Security Features

Copy Alert™ is a high security check paper for your software compatible and custom checks. Copy Alert™ offers the best security features and copying deterrents in its class.

Copy Alert™ features Optical Deterrent Technology™, a new hidden word technology that performs second to none! This unique flat screen pantograph easily detects a forged copy, by voiding the face of the check.

Technology today can provide anybody the tools necessary to fraudulently duplicate and manipulate your checks and confidential documents. Physical and chemical document tampering still occurs; however, color copiers, scanners and PCs are now the counterfeiter's weapons of choice. Copy Alert™ featuring ODT™ will protect your checks from unwanted duplication and manipulation on the majority of today's color copiers, black and white copiers and scanners.

This high security Copy Alert™ Check Stock is available in both continuous and laser formats. We also offer the laser format in a non-imprinted format to accommodate your check writing software programs. This non-imprinted check stock is available in five colors: navy blue, forest green, purple, brown, and burgundy and includes all of the Copy Alert™ security features. Call for pricing.
